DIRECTIONS & PARKING

Chancellors

From Scotland/The North: From the M61 join the M60 following signs for Manchester Airport. Then join the M602 (signposted Manchester). Follow signs for Manchester Airport onto the A57. At the roundabout take the 3rd exit (A5103), after approximately 1½ miles take a left at the traffic lights into Wilbraham Road (A6010). At the 4th set of traffic lights, turn left into Chancellors Way. Chancellors is situated on the left hand side opposite the Armitage Centre.

From the South: Leave the M6 at Junction 19 (Knutsford), turn right onto the A56 and follow signs for Manchester Airport. At the roundabout, take the 3rd exit for the M56 (Manchester). Take right hand lanes to the end of the motorway and join the A5103 – keep forward (signposted Manchester City Centre). At the 5th set of traffic lights turn right onto Wilbraham Road (A6010 signposted Sheffield). At the 4th set of traffic lights turn left onto Chancellors Way. Chancellors is situated on the left hand side opposite the Armitage Centre.

From the West: Leave the M62 onto the M602. Follow signs for Manchester Airport onto the A57. At the roundabout take the 3rd exit (A5103), after approximately 1½ miles take a left at the traffic lights into Wilbraham Road (A6010). At the 4th set of traffic lights, turn left into Chancellors Way. Chancellors is situated on the left hand side opposite the Armitage Centre.

From the East: At the end of the M67 turn left onto the M6 (Stockport). Leave the M60 at Junction 5 and join the A5103 – keep forward (signposted Manchester City Centre). At the 5th set of lights turn right onto Wilbraham Road (A6010). At the 4th set of traffic lights, turn left into Chancellors Way. Chancellors is situated on the left hand side opposite the Armitage Centre.

Rail: Long distance trains arrive at Manchester Piccadilly station. Either take a taxi (approximately 15 mins) or

Bus: Take any 40's bus from stand 'J' in Piccadilly Gardens Bus Station (5 minutes walk from railway station) to Owens Park on Wilmslow Road. Walk forward to the junction with Moseley Road, turn left and walk until you arrive at Chancellors Drive on the left hand side.

Air: From Manchester Airport approximately 25 mins by taxi.

**FOR SATNAV USERS: M14 6ZT and once
you arrive at this location follow signs for
Chancellors**

Dinner & Lecture 13th December 2011

6.30 pm Dinner

There will be an informal dinner before the meeting in honour of the speaker at 6.30 pm in the Chancellors Restaurant.

The cost of the 2-course meal (starter and main course) is **£21.00** per person. A bar is available from 6.00 pm in the lounge area. Please complete the form adjacent should you wish to attend. Members are reminded that partners and guests are welcome to attend the evening.

7.30 pm Coffee & Registration

8.00 pm

Mr Gordon MacKinlay

President of The British Association
of Paediatric Surgeons

“A Glimpse through the
keyhole at advances in
paediatric surgery”

Lecture 13th December 2011

These days the majority of abdominal and thoracic operations in children can be performed laparoscopically or thoracoscopically not only in infants and children but also in neonates, even very premature neonates. Particularly in the neonate, some procedures can be challenging and should only be considered once one has acquired advanced laparoscopic skills in older children. These operations also require an experienced paediatric anaesthetist with the knowledge of the problems associated with CO₂ insufflation of the abdominal or thoracic cavity. There are significant increases in EtCO₂ in children undergoing thoracoscopy; which are higher than during laparoscopy. Changes in EtCO₂ are larger in smaller children undergoing single lung ventilation. Thoracoscopy may surprisingly preserve intra-operative thermoregulation in small babies.

My own experience in complex endoscopic procedures will be illustrated. These include lung resections, oesophageal atresia repair, repair of congenital diaphragmatic hernia, pancreatotomy for nesidioblastosis, laparoscopy in neonatal necrotising enterocolitis, re-do fundoplication and tumour biopsies and resections, both laparoscopic and thoracoscopic. The benefits of laparoscopy and thoracoscopy for the paediatric patient are multifaceted and of enormous importance in the oncology group. In units where the surgical expertise is available then laparoscopy and/or thoracoscopy should be considered in the diagnosis and treatment of all paediatric oncology patients.

December Surgery Booking Form

*There is a charge of £10.00
for non members to attend this meeting.*
